Mountain Mover

Jason Collett will instantly captivate your audience. More than an average corporate guy, Jason invigorates listeners with inspired stories from his high-altitude adventures and personal global leadership journey. He delivers actionable lessons that solve today's biggest people challenges and leadership obstacles. Jason expertly amplifies the human potential for listeners, their teams, and their organizations.

A Motivation Maverick and trusted advisor, Jason has an extraordinary career which includes experiences as a self-made entrepreneur and Fortune 100 Executive. He combines his sensible insights with down-to-earth research in Behavioral Psychology, Emotional Intelligence, and Business Strategy that empowers every listener to become their own **Mountain Mover!**

"Jason's thrilling adventures and practical lessons captured our hearts, pulling our whole team together. He really makes you think!"

– VP of Human Resources, Johnson & Johnson (MGA)

JASON DELIVERS AN UNPRECEDENTED FUSION OF:

- Integrative Psychology, Emotional Intelligence, and Business Strategy
- Culture & Engagement-Building through applied Data and Behavior Techniques
- Insights from start-up ventures to challenges of enterprise theories, balanced with corporate practices and strategies to GSD (Get Stuff Done).

CUSTOM KEYNOTE & WORKSHOP EXAMPLES:

- The Heart of Leadership – Accidental Cultures strip organizations of their potential. Create flourishing engagement by aligning purpose, connectedness, and strategy.
- Mountain Mover – Success is defined by the realization of value, not a deliverable. Like climbing a summit, "Return Home Safely" is the only goal. (You'll have to hear the story!)
- Unleash Your P.O.W.E.R. (Personally Optimized Work & Energy Routine) – Amplify Human Potential, empower people naturally, and equip the organization to be its best.
- Get a Seat at the Table – Success tactics to get your voice heard by emphasizing alignment, framing support data, and effectively influencing decision-makers.
- The Rise of Strategic HR – Move from compliance and policy to a strategic business driver. Engage the workforce to build a Performance Culture and "Walk Through Walls".
- The "Art & Science" of Workspace – Using scientifically-backed data to determine on-site, hybrid, and virtual work, improve productivity, engage people, and deliver ROI.

AUDIENCES SERVED:

- Human Resource & People Operations
- C-Suite and Global Executives
- Business Leadership & Corporate Teams
- Entrepreneurs & Start-ups
- Manufacturing, Transportation & Logistics
- Professional Industries and Non-Profit
